Before Orbital Rim Implants
Sub Human Ethnik Mode

AFTER ORBITAL RIM IMPLANTS
6/10 WHITE GUY MODE

This is just 1 surgery and he changed this much, imagine what if he would become if he fixed his uneven jaw and nose etc

nearly 99% of you on here are just rotting and making dumb threads everyday instead of trying to earn money and getting surgeries done.

His surgeon was Jonathan Hoenig

<http://www.makemeheal.com/pictures/cheek...nts-a11436>

I did some digging and i think he might have posted on Pua or *****?
does he post here??!???

Holy fuck, how much did it cost him, can someone find out?!?!??
HOw much does yaremchuk charge for a procedure like this btw? someone aware me

Holy fuck...he ascended.

His eyes were already more or less good: PCT and hooded. with lower eyelid support...his eyes are just perfect.

Same result can be achieved with Fat transfer.

Same result can be achieved with Fat transfer.

But fat transfer doesn't fix NCT like Orbital rim implant does.

fuuuuuck

I need it

The implant will erode your bone unfortunately

Fillers blepharoplasty and fat are good doe

@The A_Rab

What is with the pedophilic image in your signature?

Desperately need this

If Gandy is gracious, I may have it next February.

I'd love to get that too, I was even consulting with a surgeon but he literally told me that this procedure is dangerous

I'd love to get that too, I was even consulting with a surgeon but he literally told me that this procedure is dangerous

Wtf????? Why?!?!

I saw videos of it getting done

They incise under the lower lid

It shouldn't be more dangerous than blepharoplasty

Why are orbital rims considered dangerous?!

Bro I have no clue, I even asked for simple fillers and yet he said the risk of blindness is an important factor to consider..like it could REALLY happen.

I doubt that the surgeon would say that if there wasn't any risk involved..because think about it, any surgeon would downplay it just to make some quick coin but he declined to do so..so I think the risk is there and real...

Maybe someone else can shed some light on this. It crushed me to honestly and I am hoping to hear otherwise

Why do appley and yaremchuk do it tho and that too successfully
Maybe your surgeon hasn't learn to do it properly and perfectly?
Actually maybe it is dangerous? I have researched about orbital rim implants and the only people who do it live in the US so idk
Fuck...
Dreams being crushed tbh but i will still take the risk, the costs are holding me back only

The risk is there, but experienced surgeons know how to do it with minimal risk. Regarding under eye filler, most PS and surgeons do it because they know how to minimize the risks and what to avoid doing. There's more risk in filling the glabella, yet Dr's do it successfully every day, and I've had that done several times.

Same result can be achieved with Fat transfer.

But fat transfer doesn't fix NCT like Orbital rim implant does.

He did have canthoplexy too, one of the best ascensions I've seen though

That Yaremchuck poster boy went on to fuck the whole thing up by going to another Dr and getting fullfull face fat transfer. He then went on to try to get that revised by Dr.Y again. Dr.Y hates fat transfer, I think it's a very antiquated procedure with too much uncertainty regardingregarding outcome. It can take it some parts, not others, can leaveleave lumps, or just go away completely.
